

T1A2 Portfolio Site

Design Overview

- Goals:
 - Simple, professional and minimal design.
 - 2 color-scheme
 - Something big and bold to capture attention.
 - Adhere to UI conventions.
 - Subtle shadows and gradients to make the site look slightly more 3-dimensional

Target Audience

- Target Audience is prospective clients and employers, design goals are clean professional with attention-hooking elements
- Site will be completely responsive to the mobile, tablet and desktop audience.
- Portfolio is practically an advertisement, so only important information is at the front of each page.

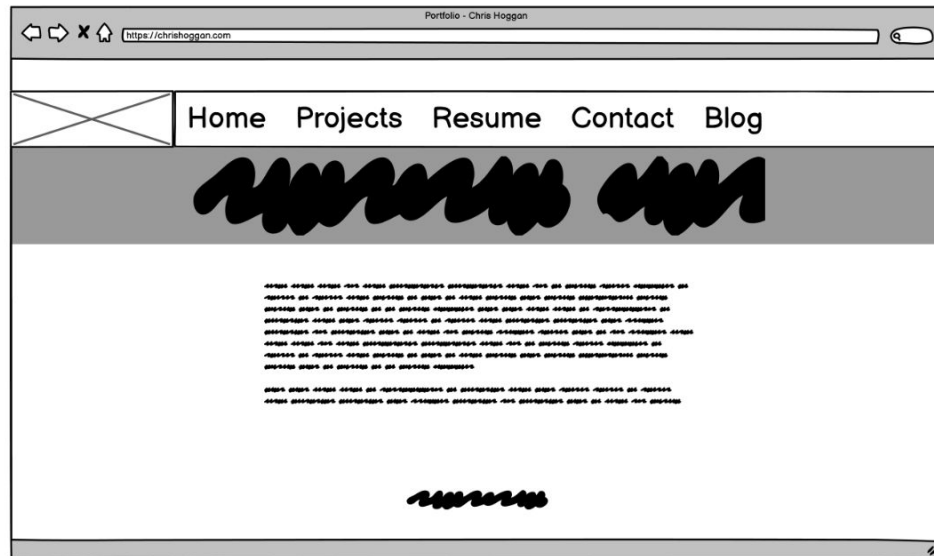

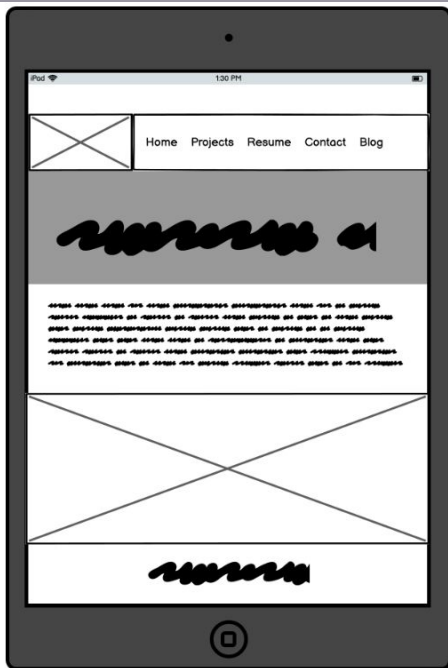

Site Map

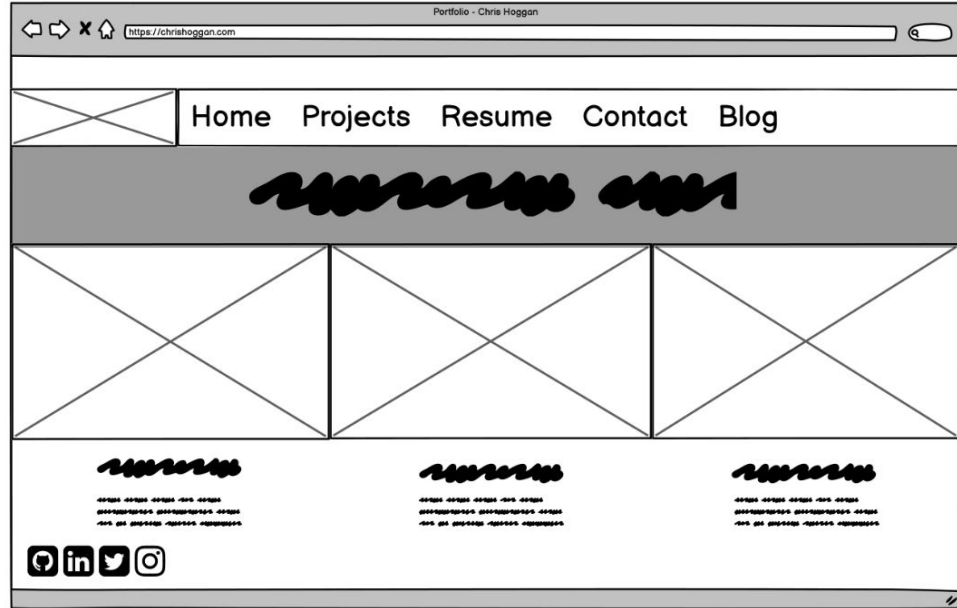

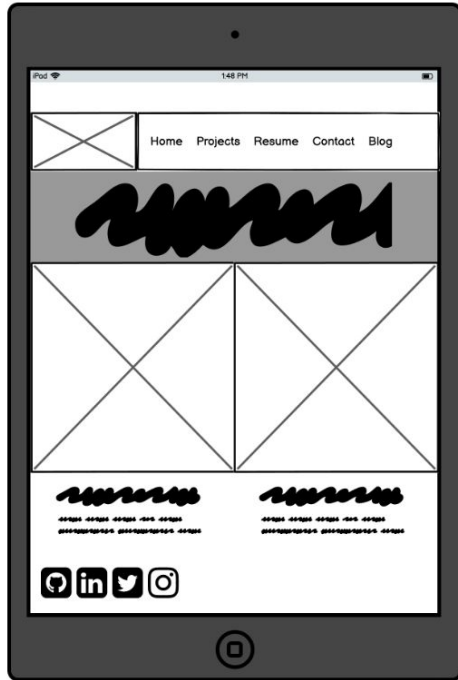

Components

- All pages contain a navbar and logo to go to the homepage.
- Mobile will use a media query w/ collapsible menu

MAKE COOL STUFF

Hi there!

I'm a Junior Web Developer with a passion
for tech.

I've been in the IT industry for more than
eight years, with experience in networking,
voice and linux administration.

Join me in my mission to design, automate,
and build new ambitious projects, together
we can

make cool stuff.

*"Goddamn, Chris is more than awesome, like
awesome^awesome^awesome and I'm not
sure how to shorthand that"*

- Talieson D.
